***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/17/08 has been entered.
2. The filed RCE and the information disclosure statements filed on 10/17/08 are acknowledged and considered by the Examiner.

**REASONS FOR ALLOWANCE**

3. Claims 14-15, 18-20 and 23 are allowed.

The following is the Examiner's statement of reasons for allowance.

The prior arts filed by applicant on 10/17/08 fail to disclose or suggest the collective features of the invention such as "decision means for deciding to segment the target data and receive the segmented target data a plurality of number of times from the image supply device in the case that the information indicates that the target data is image data, or to receive the target data at once from the image supply device in the case that the information indicates that the target data is script data; for example the cited prior art or Ueno and the JP, Pub "same assignee for both" as the present invention, are not disclosing the limitation of mentioned above, There is no passage cited in the disclosure which would for example "to receive the target data at once from the image supply device in the case that the information indicates that the target data is script" These features along with the rest of the claim's limitations would render the claims allowable.
